Local Firms Thanked For Loan Of Autos

In a join expression of their appreciation to automobile dealers who have loaned cars to high schools — at no cost to schools — for the purpose of Driver Education, the Department of State Police, the Virginia Department of Education and the Automobile Club of Virginia have presented a certificate to Grimes Motor Company, Appomattox and Moses Motor Company, Appomattox.

Experience has shown over the years that youngsters who have received an adequate High School Driver Education Course have only about one-half as many accidents and violations as other drivers in their own age group. Since funds for education are always in short supply, the generosity of automobile dealers in providing cars at no cost to the schools has undoubtedly made it possible for many of our young people to have adequate preparation before undertaking to drive on our highways. They can rightfully take credit for having saved a number of lives.

First Million-Dollar Union In Engineering
On January 21 the Columbia Day Adventist reported that every conference in that field has surpassed last year's Investment record with a total of $1,000,313.10 and a per capita of $21.75. This is the first time any union has reached $1 million dollars in one campaign. A bright page in the modern book of Acts has been written by the Columbia Union.
Leaders of the ten unions of North America has done exceptionally well this year. Only two unions have not as yet ended last year's achievement. These are fields that were visited by representative foods during the campaign, but they are very close to a new record.
The leadership of our workers and the loyalty of our members in the fields are the main factories under the blessings of God that make it grow at home and abroad as a result of this faithful Christian witness.
The Potomac Conference which consists of all of Virginia, the District of Columbia, and two of West Virginia, led with a total of $251,141.79.

A Friendly NOTE

By: Paul Thompson

It probably won't make your day a huge success, but did you know that New York City is plagued with more automobiles than all of Germany and France combined? . . . that in a tornado area the safest spot in a frame structuture is the southwest corner of the lowest floor or basement? . . . that "sleeping like a log" is no mean feat? The average sleeper turns 36 times in a night of sacktime. This figures out to a turn every 13 minutes . . .

Sleep just like a log after devouring one of the luscious dinners at Parkway Restaurant, Route 24, Appomattox. Nothing induces deep satisfying sleep like a hearty meal. Let Parkway Restaurant introduce the heartiest meal you ever ate. For more information call 352-7443.

THIS WEEK'S HOUSEHOLD HINT: Road tar is difficult to remove from car bodies. However, it often succumbs to lard which is rubbed on and removed after a few minutes.

When We Meet

by F. D. Flynn
Appomattox, Va.

When life's night is fast falling
And the days of our youth are gone
O what will it be when
Our Saviour we see.
When the King comes in
And we meet Him face to face.

O what will it be when
We look on His face
Will He turn His face with a look of Disgrace.
Or will He say "Well done,"
When the King comes in
And we meet Him face to face.
O what a joy it will be
When Jesus sees the souls
That the Gospel Plan has gathered in
Will we hear the "Well Done"
when the
King comes— and We Meet Him face to face?

No window post. No floor hump. No radiator. No power steering. No power brakes.

Some of the things you don't get in a Corvair are among your best reasons for buying it.

'65 Corvair Monza Sport Sedan

Corvair by Chevrolet

The beauty of it, of course, goes deeper than the things you don't get. There's the other side of the coin—what you *do* get in their place.

Take the no window post, for example. What you do get is hardtop styling—with curved frameless side windows—in every Corvair closed model.

The transmission and driveline hump you don't get means more foot room. Thanks to Corvair's rear engine, the floor is practically flat.

No radiator—the engine's air-cooled—also means no water, no antifreeze and no hose leaks to worry about. All of which add up to some more important pluses.

Power steering? Power brakes? Corvair needs them like a centipede needs crutches. With most of the engine weight on the rear wheels, the front ones are free to steer easily. And stops are quick and sure—with no nosediving.
